MAKE THE MOST OF EVERY MOMENT

Whether you're at the park with the kids, enjoying a day at the beach with friends, or embarking on an outdoor adventure, Motorola Solutions' Talkabout™ walkie-talkies are the perfect companions for staying connected while immersing yourself in what's important. Featuring Easy Pairing and 16 license-free channels, these walkie-talkies combine style with seamless communication, making them the ultimate choice for anyone seeking effort-less connectivity.

With reliable and instant communication, including hands-free operation at the push of a button, these walkie-talkies empower you to fully embrace, relish, and conquer every moment.

EASY PAIRING

Sync and get going! With the simple one-click functionality, Easy Pairing allows you and your family or friends to program all your radios to the same channel and code simultaneously. This way, you can start exploring without wasting time on preparations.

INSTANT PUSH-TO-TALK COMMUNICATION

Loud, clear, and instant, the push-to-talk (PTT) functionality means that making a call is quick and easy. Simply press the button and speak - no waiting for a dial tone or for calls to connect.

PMR446 LICENSE-FREE

Talkabout radios use PMR446 frequencies for easy and cost-effective operation, with no subscription or call charges. Additionally, Talkabout radios are compatible with any other operating on the same PMR446 frequencies.

16 CHANNELS

More channels mean more options and fewer interferences from other radio users, ensuring messages get through on the first try.

SUCCESSFUL COMMUNICATION FOR YOUR BUSINESS

Businesses and organizations in today's landscape do one thing well: they communicate. Whether it's communication between people, between people and machines, or between machines, all processes flow smoothly, making operations efficient, productive, and secure. Having effective communication is an essential pillar of success. That's why we offer you a variety of alternatives to find the one that best suits your business in terms of features, scope, and/or cost-effectiveness.

A suitable communication platform that is compatible with your goals and helps you achieve your objectives is now within your reach with the Business range from Motorola Solutions.

CLPe

CLPe SERIES

CLR

CLR SERIES

EFFICIENCY

Improving efficiency can generate savings in the business, even if costs increase. One good way to achieve this is to have people and teams work together, with well-established goals: each person with a clearly defined role, avoiding unnecessary duplication of efforts or communication interruptions.

PRODUCTIVITY

Being productive means being able to react quickly to unexpected interruptions, minimizing the impact and reducing downtime so that deadlines and objectives are not affected. Providing people with the tools they need to be productive is a positive step that creates a sense of ownership and pride among the workforce.

SECURITY

Your resources consist of protecting your business. Do you have everything you need to react in time if one of your workers gets injured, if security is compromised, or if a fire occurs? Are you able to prevent an incident from turning into a crisis? Maintaining safety to comply with legal regulations is also a mandatory business practice that will help you avoid legal actions, overwhelming fines, or even worse consequences.

CLPe

TRANSCEIVER

START A NEW CONVERSATION IN STYLE

With the increasing pressure of customer reviews and online purchases, customer experience is of utmost importance. Your team needs to connect instantly, respond quickly to customer requests, and provide top-notch service.

Whether it's for administrative tasks or customer service, the CLPe series radios are stylish communication tools for essential teams, designed to withstand intensive use throughout the day, every day.

The CLPe series is compact, lightweight, and user-friendly, providing instant communication with the push-to-talk (PTT) button. It features

an intelligent status light ring that allows you to quickly check essential radio information at a glance. In addition to reducing the number of missed messages with clearer and more powerful audio for precise communication between users. All this performance is protected by a durable radio housing and long-lasting battery.

The CLPe series offers excellent performance throughout the day and can be customized to fit your work environment with licensed and license-free radio models, as well as a wide range of accessories such as chargers, carrying options, and headsets.

KEY FEATURES

A. DURABLE POLYCARBONATE HOUSING

The radio features an IP54 and MIL-STD 810H certification against dust, water, vibration, shock, and extreme temperatures.

B. PUSH-TO-TALK BUTTON

Large-sized, tactile button located at the center for easy access and use.

C. LOUD AND CLEAR AUDIO

Clear and crisp audio performance in any environment. Adjustable with one of its 15 volume levels.

D. LONG BATTERY LIFE

Operates for up to 20 hours to ensure your teams have battery power during extended shifts.

E. SMART STATUS LIGHT RING

With 8 colors to indicate active channel, radio transmission and reception, scanning, volume level, mute, and battery status.

CONNECTIVITY FEATURES

CLPe RADIO MODELS

There are PMR446 license-free models and 1W licensed models available so you can stay connected with your team, regardless of its size. Whether in a small store or a large shopping center, the CLPe series can keep your teams connected.

UPWARD CALL DIVERSION

Initiate an important call or alert users on another channel to immediately communicate a message in high-risk situations, ensuring the safety of your teams and assets when incidents occur.

16 CHANNELS

Multiple channels provide the flexibility to keep different teams on separate channels and allow staff to focus on their tasks. Additionally, privacy codes can be added to protect communications from nearby groups.

VOICE NAVIGATION

Staff can easily learn to use the system with voice-guided menus. The CLPe series allows you to use predefined voice messages for your channels or add customized voice messages to help staff identify the channel they should use.

CLR SERIES

WALKIE-TALKIES

TRANSMITTER

RECEIVER CLR

SMALL. VERSATILE. POWERFUL

Clear communication is crucial for every team. Whether you are overseeing a production line, monitoring the school playground, assisting customers in a store, or managing an office, you need to connect instantly to share information with your team. The CLR series is your essential communication tool designed to last all day, every day.

POWERFULL PERFORMANCE

The CLR has an IP52 rating to withstand dust and water that could otherwise damage the radio. It has also been tested to MIL-STD 810H to ensure it is rugged enough to handle all-day use. Extended shifts are not a problem for the CLR; its long-lasting battery helps you stay connected for up to 18 hours of communication and collaboration.

CUSTOMIZABLE

Available with 16 channels, the CLR series offers two models to suit your personnel and work environment. A PMR446 license-free version or a 1W licensed model with greater power and extended coverage area, allowing your business to organize team communications within the required space.

There is a variety of accessories available, including different chargers and headsets, allowing users to customize the radio to meet their needs. You can even personalize the radio's settings with custom guided voice prompts to help your team make the most of their CLR.

KEY FEATURES

A. LONG BATTERY LIFE

Operates for up to 18 hours to assist your teams during extended shifts.

B. LARGE PTT BUTTON

Textured and centrally located for easy access and hands-free operation.

C. CLEAR AND LOUD AUDIO

Provides clear and crisp audio performance in any environment. Adjust between 15 volume levels from the 0.5W speaker.

D. 8-COLOR LED

Indicates active channel, transmission/reception, and battery status.

E. DURABLE POLYCARBONATE HOUSING

With 8 colors to indicate active channel, radio transmission and reception, scanning, volume level, mute, and battery status.
